

NORITSU

Pharmacy Automation

NX2000

STRIP POUCH PACKAGER

We were so behind, we had to run 20 to 24 hours a day with the older machines. The new machines decreased our run time to an average of 10 hours a day and increased our output by 25%, while decreasing our payroll hours by about 50%

Mick Blazier

Pharmacy Director
of Operations

Big Productivity Small Footprint

The perfect entry point for expanding LTC's or as a compliment to an existing packager, the NX2000 is compact enough to fit through a doorway while still offering the increased throughput and workflow efficiencies of a larger packager

- Best in class
BUILD QUALITY
- Efficient and
VERSATILE
- Perfect for combo or small
LTC PHARMACIES
- A partner you can
TRUST

Think you don't have the room for automation?

Compact, but without skimping on features or reliability, the NX2000 takes advantage of the same innovative and time-saving NexusRX software that runs our larger packaging systems, as well as the rock-solid engineering and build quality you've come to expect from Noritsu.

Built To Last

Nothing is more costly or frustrating than unnecessary downtime. Our systems are built to exacting standards with the highest quality materials to maximize reliability. Schedule a discovery meeting today and see the difference for yourself

Intelligent Software

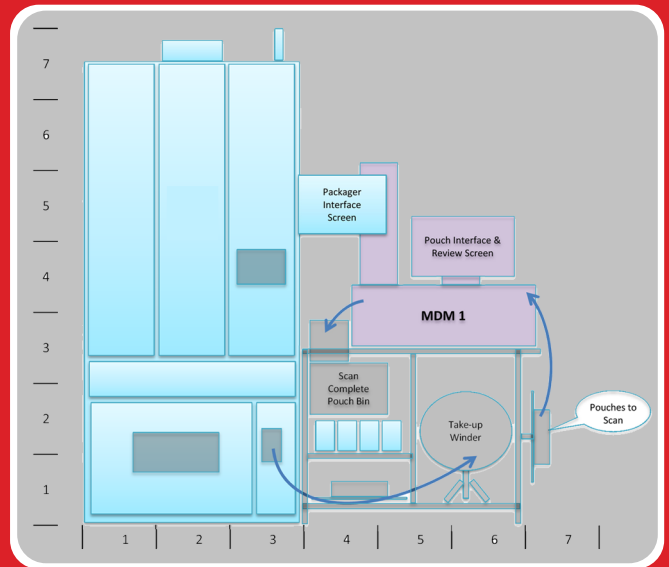

Inefficient workflow can be a major cause of bottlenecks in your production. Our unique Virtual Release technology and intelligent order processing help alleviate interruptions by planning the best use of resources prior to starting a production run. Uninterrupted production means less labor and faster throughput

Unmatched Service

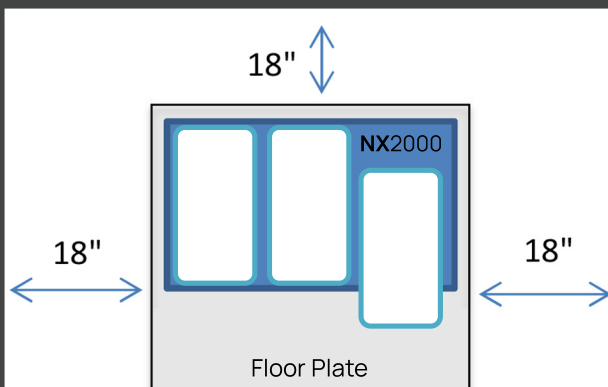

We know that choosing a new technology partner can be hard. With over 40 years of field support experience, Noritsu strives to be more than just a vendor. We will be there with ongoing support, helping to fine-tune and improve your systems based on your needs

Bundle with the MDM 1 For A Full PV-2 Package and Review System

- Potentially double productivity compared to other packagers
- Drive increased patient compliance by 20% to 30%
- Perfect for retail pharmacies

Specifications

NX2000 machine dimensions
w 35.5" x d 23.6" x h 78"

NX2000 System Specifications

Control System	Microcomputer control
Medicine Storage	Vertical sliding cabinet
Number of Cassettes	204 Rotary Cassettes
Dispensing Speed	Burst Rate up to 55 pouches / min
Dimensions	W. 35.4" - D. 23.6" - H. 77.2"
Weight	948 lbs without cassettes
Operating Environment	Temp. - 59-95 ° F / 15-35 ° C - Humidity 20-60%
Power Source	110-220V ac / 8 Amps - 60Hz / single-phase

Recommended walk and work area - **w 71.5" x d 41.6"**
Doorway Access - **24" x 34.5" x 78"**

It is recommended to allow a working space of at least 18 inches for the back and sides of the system to allow room for maintenance, cleaning and system access.
