

SAYING "YES"

**NORITSU**  
Pharmacy Automation

**FEELS  
GOOD**

**nexus**<sup>Rx</sup>  
Pharmacy Control Software

**SAY "YES"!**

Granular control over facilities, orders, meds, and patients means unparalleled versatility and uninterrupted production.

When a customer starts a sentence with "Can you..." you can feel confident that the answer will be "Yes"

### **VIRTUAL RELEASE**

Change dates, change NDC's, exclude a patient... All without the need to go back to your PMS to adjust and re-export, so production is never interrupted

### **EKITS AND PRN'S**

Easily create an eKit or PRN when needed right from the interface, no other software needed

### **BI-DIRECTIONAL COMMUNICATION**

Feed data back to your PMS to keep inventory and billing correct. We work with you to build the best solution

### **PERFECT POUCH**

Customize your pouches with text, graphics, dose times, patient images, Emar barcodes... Whatever you like, and store the information by facility or ward

### **FRIENDLY TIME**

Configure pouch print options for dose times in 12 or 24-hour formats, custom texts or images

**Set up a discovery conversation with a Noritsu rep today.**

No obligation. No hassles. Just tell us about your pharmacy, goals, and pains. We'll work together on a solution you'll want to show off to your customers.
