BENJAMIN TRAY LOADING SYSTEM

Fast and Accurate Pre-Loading for Lesser Used Meds

The Benjamin works with your strip packagers, allowing you to easily pre-stage one-off, cut, and lesser used meds, adding them intelligently into your production workflow.

- Simple color coded **FILL-BY-LIGHT**
- One med at a time **LAYERED DROP SYSTEM**
- Seamless integration **UNINTERRUPTED WORKFLOW**
- Access your entire **FORMULARY**

A Better Tray Loading System

The Benjamin allows you to handle your otherwise difficult meds as if they were part of your regular workflow. Using layered drops and RFID coded trays, accuracy is assured. A pre-staging system within the packager allows for pre-loading the trays so production goes uninterrupted. And, a steel frame ensures reliability and longevity. Accuracy, efficiency, reliability... that's Noritsu.

Built To Last

Nothing is more costly or frustrating than unnecessary downtime. Our systems are built to exacting standards with the highest quality materials to maximize reliability. Schedule a discovery meeting today and see the difference for yourself

Intelligent Software

Inefficient workflow can be a major cause of bottlenecks in your production. Our unique Virtual Release technology and intelligent order processing help alleviate interruptions by planning the best use of resources prior to starting a production run. Uninterrupted production means less labor and faster throughput

Unmatched Service

We know that choosing a new technology partner can be hard. With over 40 years of field support experience, Noritsu strives to be more than just a vendor. We will be there with ongoing support, helping to fine-tune and improve your systems based on your needs

Benjamin Features and Benefits

- Competitive products require two techs to review tray work, the Benjamin is approved at all of our pharmacies for solo use
- RFID-coded trays, the packager will reject incorrect trays eliminating packaging errors
- Trays can be pre-loaded ahead of production, saving time and labor
- Works with our NexusRx software to intelligently integrate tray work into production for an incredibly fast, optimized workflow
- Trays are interchangeable between multiple packagers, and can be named for ease of use
- Allows quick access to virtually your entire formulary. Controlled and costly drugs, odd form factors that don't fit easily into cartridges, half-tabs, even new NDC's are all now able to fit easily into your runs without interrupting production
