NVCore
Compact Verifier

NORITSU
Pharmacy Automation

Fast Verification in a Compact Design

Images both sides of every pill for increased accuracy

Integrated programming functionality allows operators to easily teach-in new pills

Fits easily on a desktop

Field-proven vision technology

Noritsu America Corp.   6900 Noritsu Ave. Buena Park, CA 90620   714-521-9040   noritsu-rx.com

NexusRx is a **comprehensive workflow management system** that integrates with all Noritsu automation equipment, managing everything from prescription preparation and production to reporting and verification.

Get a complete, streamlined view of your operations, while optimizing your workflow. Coordinate dispensing, tracking medications, and reporting from anywhere in the facility. Achieve higher accuracy rates, better manage labor, and reduce operational bottlenecks with NexusRx.

Spend Less Time Verifying Medications

After imaging and archiving, anomalies are flagged for further inspection by a pharmacist.
Our innovative **MDC** system allows technicians to easily check imaged pouches remotely, improving your workflow and reducing the amount of time your staff spends handling and verifying medications.

Specifications

Measurements (WxDxH)	32.7 x 16 x 29.1 inches (height incl. screen)
Min. required work area (WxD)	48.4 x 46.3 inches
Weight	± 132 lbs
Power supply	100 - 240 VAC ~ 50/60 Hz
Power consumption	200 W
Operating environment	41 - 104 °F and < 80% RH (non-condensing)
Network requirements	Network connection for the interface of Tablet Packing Machine (min. 1 Gbp/s)
Transportation speed	Max. 120 mm/s
Detection capacity	Max. 5,400 pouches/hr (pouch length 80 mm)

Efficient, Safe, and Reliable Medication Verification
