NORITSU

Pharmacy Automation

Streamline Your Verification Process

**All-in-One solution
combining verification,
sorting, and rolling**

**Spend less time checking
pouches and save on labor**

**Drastically reduce
touch rates**

**From packaging to a ready-
to-ship product in minutes**

Powered By

nexus^{Rx}
Pharmacy Control Software

NexusRx is a **comprehensive workflow management system** that integrates with all Noritsu automation equipment, managing everything from prescription preparation and production to reporting and verification.

Get a complete, streamlined view of your operations, while optimizing your workflow. Coordinate dispensing, tracking medications, and reporting from anywhere in the facility. Achieve higher accuracy rates, better manage labor, and reduce operational bottlenecks with NexusRx.

Spend Less Time Verifying Medications

After imaging and archiving, anomalies are flagged for further inspection by a pharmacist. Our innovative **MDC** system allows technicians to easily check imaged pouches remotely, improving your workflow and reducing the amount of time your staff spends handling and verifying medications.

Specifications

Measurements (WxDxH)	91.3 x 22 x 54.5 inches
Min. required work area (WxD)	103.3 x 43.7 inches
Weight	± 794 lbs
Power supply	100 - 240 VAC ~ 50/60 Hz
Power consumption	900 W
Operating environment	41 - 104 °F and < 80% RH (non-condensing)
Network requirements	Network connection for the server and tablet packaging machine (min. 1 Gbp/s)
Transportation speed	Max. 240 mm/s
Detection capacity	Max. 10,800 pouches/hr (pouch length 80 mm)
