NVCore

Streamline Your Verification Process

The NV series of verification systems check each pouch visually utilizing a library built from your own formulary. Pouches are imaged, verified, and archived using high-speed cameras, allowing pharmacy technicians to easily check any flagged images either locally or remotely, saving you time and money

Drastically Reduce
TOUCH RATES

Fast and
ACCURATE

Increased throughput
LESS LABOR

A partner you can
TRUST

How much time do you spend verifying meds?

After imaging and archiving, anomalies are flagged for further inspection by a pharmacist. Our innovative MDC system allows technicians to easily check imaged pouches remotely, improving your workflow and drastically reducing the amount of time your staff spends handling and verifying medications.

Built To Last

Nothing is more costly or frustrating than unnecessary downtime. Our systems are built to exacting standards with the highest quality materials to maximize reliability. Schedule a discovery meeting today and see the difference for yourself

Intelligent Software

Inefficient workflow can be a major cause of bottlenecks in your production. Our unique Virtual Release technology and intelligent order processing help alleviate interruptions by planning the best use of resources prior to starting a production run. Uninterrupted production means less labor and faster throughput

Unmatched Service

We know that choosing a new technology partner can be hard. With over 40 years of field support experience, Noritsu strives to be more than just a vendor. We will be there with ongoing support, helping to fine-tune and improve your systems based on your needs

Check, verify, and clear flagged pouches remotely with our MDC software!

NVCore

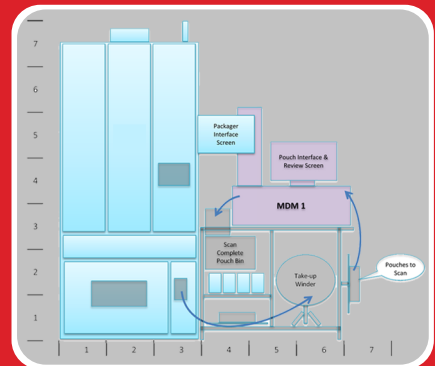

- Self-contained countertop unit, verify up to 48 pouches per minute
- Archives all images and orders for accountability and record keeping
- Easily adapts to changes in your formulary

NV2

- Verify, image and archive up to 75 pouches per minute
- Available winder / unwinder for increased workflow
- Robust reporting features make data collection easy

NVPRO

- The fastest, and most efficient verifier on the market
- All-in-one - Combines verification, sorting, and rolling
- Automatic winder with user defined batch cutting
- Automatic rolling and taping yields a ready-to-ship product

Combine an NV verifier with one of our NX or Z Series packagers for a full PV-2 package and review system
