Next Level Vision Technology

Every NV Series verifier is equipped with our cutting-edge camera technology, capturing high-resolution images of both sides of each pill to ensure accurate and safe verification of medication pouches. The integrated programming feature simplifies the process of teaching in new pills, offering a comprehensive solution for pouch verification.

With rapid detection speeds and intuitive operation, the NV Core stands out as one of the most efficient and dependable verifiers on the market.

Specifications

Measurements (WxDxH)	32.7 x 16 x 29.1 inches (height incl. screen)
Min. required work area (WxD)	48.4 x 46.3 inches
Weight	± 132 lbs
Power supply	100 - 240 VAC ~ 50/60 Hz
Power consumption	200 W
Operating environment	41 - 104 °F and < 80% RH (non-condensing)
Network requirements	Network connection for the interface of Tablet Packing Machine (min. 1 Gbp/s)
Transportation speed	Max. 120 mm/s
Detection capacity	Max. 5,400 pouches/hr (pouch length 80 mm)

Combine an NV verifier with one of our NX or Z Series packagers for a full PV-2 package and review system.

Check, verify, and clear flagged pouches remotely with our MDC software!
