

NORITSU

Pharmacy Automation

The strip pouch packaging system has not only improved our pharmacy efficiency and safety, but the ability to tie into our eMar [electronic medication administration record] system creates less steps in the administration process

Ross Brickley
Vice President of
Pharmacy Services

**Fast, accurate, and
built to last.**

Maximize your workflow with access to over 2400 unique medications using our U2 zone technology and NexusRx Workflow Suite

NX400

STRIP POUCH PACKAGER

- Unrivaled
PRECISION
- Field-Proven
RELIABILITY
- Increased
PILL VELOCITY
- A partner you can
TRUST

Is your workflow as efficient as it could be?

The **NX400** is purpose-built to meet the needs of high-demand pharmacies. This reliable and flexible solution accurately fills orders from an array of easily managed cassettes and via our innovative in-line tray loading system for uninterrupted production.

Built To Last

Nothing is more costly or frustrating than unnecessary downtime. Our systems are built to exacting standards with the highest quality materials to maximize reliability. Schedule a discovery meeting today and see the difference for yourself

Intelligent Software

Inefficient workflow can be a major cause of bottlenecks in your production. Our unique Virtual Release technology and intelligent order processing help alleviate interruptions by planning the best use of resources prior to starting a production run. Uninterrupted production means less labor and faster throughput

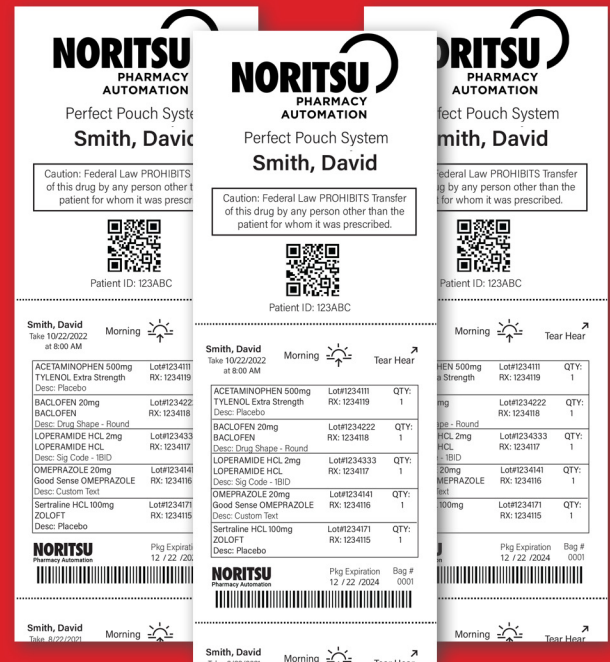

Unmatched Service

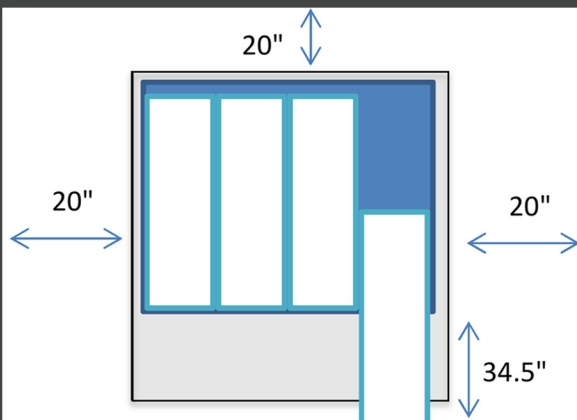

We know that choosing a new technology partner can be hard. With over 40 years of field support experience, Noritsu strives to be more than just a vendor. We will be there with ongoing support, helping to fine-tune and improve your systems based on your needs

Noritsu Perfect Pouch

Offer your clients increased safety and ease-of-use with fully customizable pouch printing. Easily create unique pouch layouts for all of the facilities you service
