

NB200

Multidose Blister Card Packager With Built-In Verification

The NB200 offers a fast and reliable multidose blister card solution designed to fit the needs of the most demanding pharmacies. Automatically fill and verify ready-to-dispense blister packs

An All-In-One Compliance Packaging Solution

NORITSU

Pharmacy Automation

Precision. Performance. Peace of Mind.

NB200

All-In-One Blister Card Packaging and Verification

Streamline blister card packaging

The NB200 provides a proven, reliable solution for both filling and verifying multidose blister cards. Compatible with nearly all card types on the market. The NB200 delivers a flexible and powerful tool for pharmacies, streamlining workflows, enhancing medication adherence, and ultimately improving patient outcomes.

Photo Based Dose Verification

A built-in image capture system photographs and verifies each blister before it is sealed, allowing for easy remote viewing by a pharmacist

RFID Enabled Custom Cassettes

Access a virtually unlimited formulary with custom-built cassettes for optimal precision and speed, saving your operators time

Integrated Light-Guided Exception Tray

Operators are visually guided with LEDs to load the correct medications into the correct trays, reducing setup time and potential mix-ups

Order Lifecycle Tracking

Follow, record, and report on all prescriptions through your packaging process

Workflow Integration

Communicates with upstream and downstream systems for centralized control of order intake, packaging, verification, and reporting

The NexusRx Difference

Noritsu's workflow software links pharmacy management, packaging, verification, and archiving into an integrated system that optimizes operations and safety at every stage of the packaging process

nexus^{Rx} Pharmacy Control Software

“ eMar integration is a unique feature and advantage of the NexusRx software. Rather than scanning a separate barcode for each medication, our staff can scan a single barcode, drastically reducing the number of steps required”
Ross Brickley
Neil Medical Group “

Virtual Release

Flag patient exceptions for review and continue production, eliminating the need to re-start entire orders

Nexus Check

Further increase safety by analyzing orders for anomalies like duplicate scripts, and cycle, regime or quantity changes

NDC Changes

Authorize NDC changes prior to packaging utilizing built-in guardrails then reconcile the PMS using NDC reports

GS-1 Barcode Support

Reduce data entry by up to 40 keystrokes when loading cassettes by scanning the cassette barcodes

eMar Integration

Cut down administration times by scanning a single bar code rather than individually recording each med administered

Analytics

View packaging and production data, gaining insights into your workflow to systematically improve and enhance production

Optimize Your Workflow

nexus^{Rx}

Compatible with all major PMS systems, NexusRx intelligently distributes orders, saving labor and optimizing production

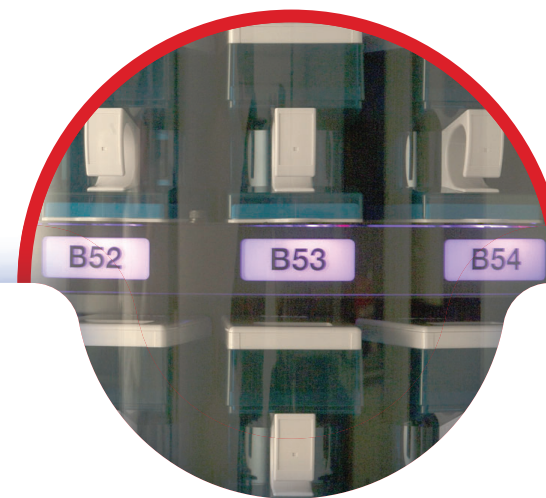

Release Batch

Pre-checking med passes saves time and ensures that everything is correct prior to production

Pre-Fill

For lesser used and controlled medications, the built-in exception tray uses fill-by light technology to make filling easy

Production

Before packaging, all meds are imaged and verified automatically, heading off problems before they occur

Review

Production can be reviewed remotely by a pharmacist, saving time and enhancing safety

NB200 Specifications

Measurements	76.8" x 33.5" x 79.1" (W x D x H)
Required Footprint	8.2' x 4.9' (W x D)
Weight	1808 lbs (820kg)
Maximum Throughput	Up to 40 trays / hr
Maximum Card Size	10.4" x 8.7" x 1"
Number of Cassettes	200 Onboard - Unlimited swapping
Pill Size Parameters	Length / Width 5 - 23mm Thickness 1.5 - 8.5mm
Power Requirements	110 115 Vac - 50/60Hz 7.3A (800VA)
Network Requirements	1 Gbps minimum network connection
Operating Environment	41 - 104° F / 80% RH (non-condensing)

The Noritsu Advantage

At Noritsu, reliability drives everything we do. It fuels our commitment to being a trusted partner, delivering proven solutions that help pharmacies thrive. We hold our products, our people, and our entire organization to the highest standards, because our customers count on us, and many have for over 40 years.

Whether you're just starting your automation journey or looking to scale, you need more than equipment - you need a partner with the experience, technology, and insight to tailor solutions to your unique business goals.

**Precision.
Performance.
Peace of Mind.**
